**Trade Union Information Kit**

The Trade Union Information & Resource Centre of the Victorian Trades Hall Council has produced a Trade Union Information Kit and a series of posters, to explain the role of trade unions in Australian society.

The Information Kit contains a number of booklets in a plastic binder, covering topics such as Union Structures, Industrial Relations, The Accord, Health & Safety, Workers Compensation, Migrants in Unions, Women in Unions and Superannuation. The posters concern unions at work, what unions do and making an award.

Both the kit and the posters would be of value to schools, libraries and community groups. The kits are priced at \$8.50 each including postage and the posters at \$5 a set, including postage. Both may be purchased from the Trade Union Information & Resource Centre, Box 17, Trades Hall, 54 Victoria Street, Carlton South, Victoria 3053.

tions in branch libraries, which have yet to be brought within the Tasmanian State Service Act, for employment purposes, are currently being examined to determine their appropriate position within the Clerical Officers' Principal Award.

**STUDY GRANT FOR CARMEL MAGUIRE**

Associate Professor Carmel Maguire, Head of the School of Librarianship at the University of New South Wales, has been awarded a grant of \$15,000 from the Australian Research Grants Scheme. The grant is for a study to begin in 1986 in which Professor Maguire will study sources of, and access to information about markets and technology in traditional manufacturing and in high technology enterprise.

Professor Maguire says 'I'm delighted — to have the chance to continue, extend and consolidate earlier work, at a very exciting time with the Federal Government's 150% tax break for industrial R&D — and projects like this turn up great possibilities for research projects and theses for Master's and doctoral students'.

If you spend much time with computer people it's hard to avoid the impression that they're married to their work. But now there's definite proof — on the masthead of a newsletter called *CompuLaw Digest* it says 'A monthly newsletter summarising information from literature relating to computers in law'!!

What do we, as a nation, care about books? How much do you think we spend altogether in our libraries, public or private, as compared with what we spend on our horses? *John Ruskin*
